

WRS

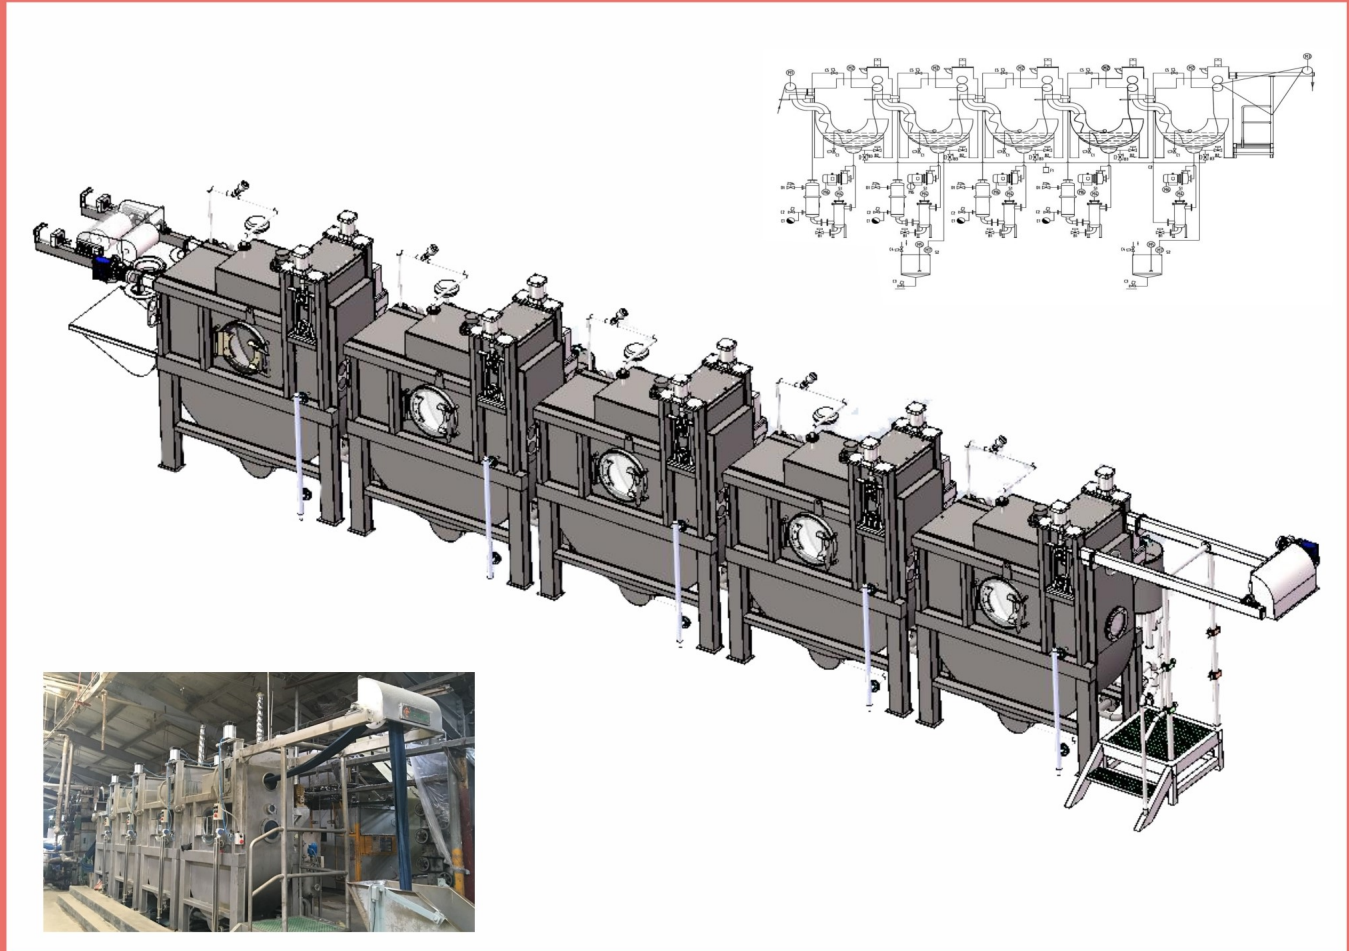

CONTINUES ROPE WASHER

绳状织物连续处理机

WRS Continues Rope Washer is designed for fabric Washing, Desizing, Scouring, Bleaching etc. Thanks to combination of Overflow-Jet, Soft squeezing technology, WRS can not only improve fabric's hand feel and Pre-shrinkage but also greatly save Water, Steam and Electricity power compare with traditional washing treatment. Consumption figures as below:

- water 4-12 Liters/kg.
- steam 0,8 kg/kg. of fabric
- electric energy 0,05 kW/kg. of fabric

Application: Grey Fabric pre-washing, Desizing, scouring; Knits/Woven fabric bleaching, scouring, washing; Neutralization after mercerizing, washing after dyeing, Etc.

WRS绳状织物连续处理机用于织物的洗水，退浆，漂白。结合了溢流，喷射，压水等织物处理技术，与传统连续洗水技术比较可使处理织物在预缩率和手感方面得到明显改善，而且极大减少了水耗和能耗，其能耗数据如下：

- 水 4-12 litres/kg.
- 蒸汽 0,8 kg/kg. of fabric
- 电 0,05 kW/kg. of fabric.

用途：毛巾，梭织胚布的水洗，退浆，煮练； 针织/梭织物的漂白，水洗，致软； 针织/梭织物丝光后，冷堆处理后，冷轧染色后，印花后的连续水洗； 羊毛织物的退浆和煮练。

MODEL 机型	SPEED 速度	MAIN PUMP POWER (KW) 主泵功率	INSTALLED POWER (KW) 总功率	DIMENSIONS(MM) 外形尺寸
